

360™ Handheld UV Curing Light

The 360 Handheld UV Curing Light is a portable, easy-to-use solution for quickly curing UV adhesives. A fully charged lithium-ion battery delivers approximately 60 minutes of continuous operation. A plugin configuration with optional AC-DC converter provides 24x7 none interrupted operation.

- UV light center wavelength: 365nm
- High power : UV light at 400mW
- Compact light Body: aluminum alloy
- Multiple Timer Settings: 5 to 60 Seconds with 5 seconds steps.

Long life time, advance 360 UV LED technology provides over 10x longer lifetime than traditional UV lamps. Fast curing, 2x fast than other spot light.

UV light with center wavelength 365nm suitable for fast curing of all UV adhesives.

360™ 手持式紫外线光固化机

360 手持式紫外线光固化机是用于快速固化 UV 胶粘剂。一次充电提供约 60 分钟的工作时间。与选购的有线插件配置可实现无中断操作。

- 紫外光中心波长：365nm
- 紫外光功率：400mw
- 微型轻灯体：铝合金
- 多个定时器设置：5~60 秒，拥有 5 秒的步骤。

超长续航时间，最新的 360 UV LED 技术提供了比传统的紫外灯超过 10 倍长的使用寿命。快速固化，比其他同类点光源快 2 倍。

中心波长 365nm 的高功率紫外线固化机适合所有紫外胶布的快速固化。
